5. **INSTRUCTIONS**

The guidelines established in the referenced “Applicable Documents” (above) will be adhered to in all matters related to Retirement Operations.

The Employee Relations Specialist (Retirement Coordinator) obtains the Annuity Estimate from either the Retirement Annuity System or the GRB, Inc. program.

The information is relayed to the requesting employee along with explanations, if necessary. If counseling session is requested, an appointment time is designated and the Retirement Coordinator counsels the potential retiring employee with information regarding his retirement system, insurance, taxes, payment schedule, as well as tips regarding the receipt schedule for any correspondence from the Office of Personnel Management. Retirement packages which contain the SF2801 or SF3107 are furnished the employee upon notification of intent to retire.

The completed retirement forms are then submitted to the Retirement Coordinator. The Retirement Coordinator reviews the package for accuracy and completeness and required documentation. The Retirement Coordinator prepares the SF52, routing sheet, and the annuity estimate, and routes the package to the Administrative Services Office within the Human Resources Department for their processing.

When the Utility Copy of the Notification of Personnel Action (SF50) is received by the Retirement Coordinator from the Administrative Services Office, it is attached to the retirement package copy and filed.
